# Our patient journey

## Physiotherapy Advice Line (PAL)

### A Blended Approach to Physiotherapy

On average, **60%** of patients diagnosed within **12 weeks** can self-manage their condition with only **100 minutes** of remote support and no requirement for face-to-face appointments

With a network of **780** physiotherapy practices, those who require face to face treatment can access it within a maximum **30 minutes** of travel time

**Organisation wide saving**  
with blended physiotherapy treatment

**\*With no change in clinical outcome**
